

Summer Semester 2025

Governance & 'Politik'

(35540/35541 – 3 SWS)

1. Objectives

The main aim of this course is to make students familiar with the existing concepts and conceptions of governance and to enable them to independently apply these concepts and conceptions for the analysis of the polity and politics of (nation) states, bureaucracies, and international organizations. Moreover, the course introduces students to selected core concepts, conceptions, and frameworks in political science.

2. Intended Learning Outcomes

At the end of this course students should

- be familiar with selected core concepts, conceptions and frameworks in political science,
- be familiar with the existing concepts and conceptions of governance,
- be able to apply the above concepts, conceptions, and frameworks in order to independently analyse the polity and politics of (nation) states, bureaucracies, and international organizations,
- have some basic understanding how collective choice (and game) theory can be utilized in order to analyse governance structures.

3. Pre-requisites

None.

4. Teaching and Learning Strategies

This course is intended to be an interactive lecture and tutorial course formally comprising 11 lectures (90 minutes) and 10 tutorials (60 minutes). At the end of the course an additional 'Question & Answer' session will be offered on

Wednesday 16 July 2025, 11:30-12:00 (NWI H 11).

Lecture slides and the tutorials' material will be made available on the e-learning server.

6. Assessment

The course is assessed by a one-hour unseen written examination at the end of the term. In the exam students can achieve a maximum of 100 marks. (If the number of participating students is less than five, an oral examination may replace the written one. Students will be informed about the form of examination as soon as possible.) The date of the examination can be found on <http://www.bwl5.uni-bayreuth.de/de/studiendekan/klausurtermine/>. Students must register for the examination via CAMPUSonline. Only if students cannot register via CAMPUSonline they can register via e-mail by sending an e-mail to Miriam Schmidt: miriam.schmidt@uni-bayreuth.de. This e-mail must only contain the title of the course, the student's surname, first name, ID number and degree of study as well as a brief indication why registration via e-mail is required. The registration deadline is one week in advance to the date of the examination. Later registrations will not be accepted.

Moreover, students have the opportunity to earn up to 10 bonus marks (which will be added to the marks achieved in the written examination), if they agree to deliver a presentation of about 15-20 minutes length on a selected topic and to produce a corresponding handout (about 2-3 pages). The available topics will be announced during the first lecture (and will also be available on the e-learning server). Students are expected to submit a draft version of their handout (and presentation if available) two days in advance of their presentation and a final version one week after their presentation. The decision on the allocation of the topics to students will take place during the second lecture.
